## NEWS LETTER FEBRUARY 2025

### INDIAN COAST GUARD DAY @ CMC

Indian Coast Guard Day was celebrated in Coimbatore Marine College on 01.02.2025. The Principal presided over the function. Cadets from B Sc (NS) and GME delivered their presentations on various themes related to Coast Guard Day. The topics covered were Roles and Responsibilities of Indian Coast Guard, Women in Coast Guard, Indian Coastline and Islands and Marine Pollution.

### INDUSTRIAL VISIT TO G.D. MUSEUM AND SCIENCE PARK, COIMBATORE

Industrial visit to the **G.D. Museum and Science Park, Coimbatore**, was successfully organized for the Department of **GPR 11 and BTECH 24** on Friday, 14/02/2025. A team of thirty-five cadets and a faculty (Mr. Hemanand) visited the museum. The visit started with one of the labs called '**The Experimenta**' where different practical experiments were performed, explaining them by their principles. The cadets gained more information from the **Car Museum** where there was a collection of foreign and Indian vintage cars. Later on, they visited the **Science Museum**, which had the history of G.D. Naidu, an inventor and an engineer who was referred to as the 'Edison of India' and The wealth creator of Coimbatore.

### GUEST LECTURE @ CMC

# COIMBATORE MARINE COLLEGE

*Approved by Directorate General of Shipping, Govt. of India*

For Admissions Contact: 1800 120 5533 / 0422 2364 999 | For College Contact: 0422 3504 985

Guest lecture @ CMC on 7th February 2025, **C/E Dolphy Pious Pinto**, Vice Principal of Mangalore Marine College, delivered an insightful guest lecture to B. Tech final-year students. He emphasized the critical importance of obtaining the necessary certifications for engine room management. He provided a detailed checklist of actions to be taken 24 hours before the first departure and stressed taking stringent precautions during bad weather and outlined essential emergency measures to ensure safety. The lecture also covered DG fitness requirements and the significance of regular checking and maintenance of various engine room components.

## FOOTBALL MATCH @ KARPAGAM ENGINEERING COLLEGE

COIMBATORE MARINE COLLEGE FOOTBALL TEAM participated in a friendly football match with Karpagam Engineering College on 30.01.2025. The team was accompanied by **Principal C/E Kaushik Dasgupta**, **Vice principal Capt. Rambabu** and **Physical trainer Mr. Sebastian**. Our college team won the match.

## WHAT IS OCEAN NOISE?

Ocean noise refers to sounds made by human activities that can **interfere with or obscure** the ability of marine animals to **hear natural sounds in the ocean**.

Many marine organisms rely on their ability to hear for their survival. Sound is a highly efficient means of communication underwater and is the primary way that many marine species gather and understand information about their environment.

# COIMBATORE MARINE COLLEGE

*Approved by Directorate General of Shipping, Govt. of India*

**For Admissions Contact: 1800 120 5533 / 0422 2364 999 | For College Contact: 0422 3504 985**

Aquatic animals use sound to find prey, locate mates and offspring, avoid predators, guide their navigation and locate habitat, as well as to listen and communicate with each other.

But human activities such as shipping, recreational boating, and energy exploration have increased along our coasts, offshore, and deep ocean environments.

Hence Noise from these activities can travel long distances underwater, leading to increases and changes in ocean noise levels in many coastal and offshore habitats.

These rising noise levels can negatively impact ocean animals and ecosystems. Higher noise levels can reduce the ability of animals to communicate with potential mates, other group members, their offspring, or feeding partners. Noise can also reduce an ocean animal's ability to hear environmental cues that are vital for survival, including those key to avoiding predators, finding food, and navigating to preferred habitats.

Draft revised Guidelines for the reduction of underwater noise from commercial shipping to address adverse impacts on marine life have been agreed by the IMO Sub-Committee on Ship Design and Construction.

The draft guidelines recognize that commercial shipping is one of the main contributors to underwater radiated noise (URN) which has adverse effects on critical life functions for a wide range of marine life, including marine mammals, fish and invertebrate species, upon which many coastal Indigenous communities depend for their food, livelihoods and cultures.
